SUMMARY

Worked as a **MERN Stack Developer** with 1+ year of experience, building and maintaining real-world web applications using **MongoDB, Express.js, React.js, and Node.js**. Developed responsive, user-friendly interfaces, integrated RESTful APIs, and optimized application performance. Managed **freelance projects**, collaborating directly with clients to deliver solutions independently. Skilled in **JavaScript (ES6+), HTML5, CSS3, Git, and state management** (Redux/Context API), with a strong focus on translating requirements into functional web applications while adhering to best coding and debugging practice.

EDUCATION

B.S. in Computer Science

University of Education

📅 2023 - 2027   📍 College Road , Township
EXPERIENCE

Full Stack Developer

Freelancer

📅 2024 - Present

- Designed, developed, and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js for clients across various domains.
- Built responsive and user-friendly interfaces while integrating RESTful APIs and third-party services.
- Managed end-to-end project lifecycle independently, including requirement gathering, development, testing, and deployment.
- Collaborated with clients to understand needs and deliver tailored solutions on time.
- Utilized JavaScript (ES6+), HTML5, CSS3, Git, and state management tools (Redux/Context API) to ensure clean, efficient, and maintainable code.
- Increased client satisfaction by 80% by managing complete project cycles, ensuring on-time and custom-tailored solutions.
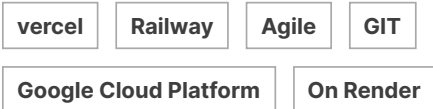

SKILLS

Server-side

`Nodejs` `Express` `MongoDB` `SQL`

`Cloudinary` `MySQL` `NodeJS`

`Redis` `AWS` `MongoDB` `Socket.IO`

`Firebase` `Supabase`

Client-Side

`HTML` `CSS` `JS` `Tailwind CSS`

`React` `Vite` `Redux` `TypeScript`

`Bootstrap`

Development & Operations

`vercel` `Railway` `Agile` `GIT`

`Google Cloud Platform` `On Render`

PROJECTS

MultiVendor(Ecommerce)

Developed a **multivendor e-commerce platform** using MERN stack, featuring seller management, product listings, payments, and a responsive user interface

- Developed a multivendor e-commerce platform using the MERN stack.
- Enabled sellers to list products, manage inventory, and process orders.
- Implemented user authentication, shopping cart, and payment integration.
- Built a responsive interface and admin dashboard for efficient management.

LMS (Learning Management System)

Built a **MERN stack Learning Management System (LMS)** with course creation, student enrollment, progress tracking, and a responsive user interface.

- Developed a Learning Management System (LMS) using the MERN stack.
- Enabled course creation, student enrollment, and progress tracking.
- Implemented interactive learning features with quizzes, assignments, and notifications.
- Built a responsive and user-friendly interface for students and instructors.
- Designed an admin dashboard for managing users, courses, and content.
- Ensured clean, maintainable, and optimized code following best practices.
